[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

Executive Summary of the Annual PHA Plan - Plan Year Ending March 31, 2005

The Danville Housing Authority reached its goal of achieving financial stability and increasing the Authority's public housing operating reserve to a reasonable level during FY 03. Further, both public housing and Section 8 should operate at a small surplus for the year, which ends March 31, 2004. The Authority's management team will continue into the FY 05 year to exercise prudent fiscal discipline due to the significant uncertainty surrounding the level of Department of Housing and Urban Development (HUD) funding streams for DHA programs. Potential reductions in Capital Funds, operating budget funds, and Section 8 administrative fees make prudent financial management and prioritization of spending the most important function for the Authority's management.

DHA should complete its longstanding project to abate and renovate units that contained lead paint and asbestos during FY 04 or earlier FY 05. This project, which started in the late 1990s will culminate with the renovation of the final 13 units. At the conclusion of this effort, all DHA residential units will be available for occupancy. This will also allow the Authority to concentrate on and resolve its last remaining problem area of vacancy rates. DHA has initiated another multi year project to replace its aged sewer systems through the award of an architect and engineering contract to analyze the system and design and manage the replacement process. A major phase of this program should occur during the FY 05 plan year. Additionally, the replacement of sewer systems will allow for some replacement or aged and crumbling roadways, which will enhance the appearance of the Fair Oaks developments.

Section 8 lease rates have reached the desired levels and should continue to use 100 percent of available funding. Section 8 clients are currently finding an adequate amount of housing available in the local market and the difficulties experienced in the past seem to have been reduced at the present time. This is an area that will require continued monitoring and it will be watched closely due to the relatively low fair market rents in relationship to desired owner rent levels.

DHA's achievements over the past two years have been substantial. For the past two years, DHA achieved HUD's high performer status in the public housing and Section 8 rating systems. Financial stability was achieved and the Authority is preparing to embark on its first non-subsidized affordable housing projects. Over the FY 05 year, DHA will strive to further improve its financial status, reduce vacancy and unit turnover time, replace some of its aging infrastructure, and began the slow process of improving curb appeal of its developments. DHA will build on its past success and will hopefully strengthen its future as the leading provider of affordable housing in its operating area.

General Comments Applicable to all assessed developments

Of the 51 units at Beeler Terrace, 48 have been completely modernized and renovated within the last five years. The final three units will be modernized with 2002/2003 Capital Funds. The three Fair Oaks developments are sound and well maintained. Eight units were recently modernized due to lead and asbestos issues and an additional 10 units will be modernized with 2002/2003 Capital Funds. This will complete the lead and asbestos abatements and renovations within the Fair Oaks developments.

According to the 2000 census, the City of Danville has about 4900 rental units out of a total housing inventory of 14800 units. The Authority provides 537 rental units which is 11% of the total rental units in the City. The Authority also has funding for about 600 units of Section 8 voucher rental assistance. For the past few years, individuals issued Section 8 vouchers have and continue to experience difficulty in locating affordable housing in the City. The Authority has experienced difficulty maintaining the HUD desired lease up rate due to the inability of voucher holders to find suitable housing. Normally, three of four holders do not locate housing in the 120 day period allowed. The City does not have the current capacity to absorb any significant increase in Section 8 rental assistance. Vouchering out of public housing would likely result in families

without realistic affordable housing options. As the current Section 8 program seeks to use about 13% of the total rental market, it seems highly unlikely that any increase of consequence would be absorbed in the absence of some future additions to the rental inventory. Consequently, the same general philosophy and rationale applies to all the family units in the Danville Housing Authority inventory.

Development Assessments

1. Fair Oaks - IL06P011 001

The difficulty experienced by Section 8 voucher holders in finding suitable rental housing indicates that vouchering out of any public housing units at this time would seriously decrease the stock of affordable housing and place current public housing residents in a situations where housing choices were significantly reduced or eliminated.

2. Beeler Terrace - IL06P011 002

The difficulty experienced by Section 8 voucher holders in finding suitable rental housing indicates that vouchering out of any public housing units at this time would seriously decrease the stock of affordable housing and place current public housing residents in a situations where housing choices were significantly reduced or eliminated.

3. Fair Oaks Addition _ IL06P011 003

The difficulty experienced by Section 8 voucher holders in finding suitable rental housing indicates that vouchering out of any public housing units at this time would seriously decrease the stock of affordable housing and place current public housing residents in a situations where housing choices were significantly reduced or eliminated.

4. Fairs Oaks West (Danville) - IL06P011 007

The difficulty experienced by Section 8 voucher holders in finding suitable rental housing indicates that vouchering out of any public housing units at this time would seriously decrease the stock of affordable housing and place current public housing residents in a situations where housing choices were significantly reduced or eliminated.

Danville Housing Authority
PHA Plan Addendum - Plan Year: April 1, 2004 - March 31, 2005
Deconcentration and Income Mixing Comments -
Component 3A(6)

Danville, IL Housing Authority (IL011)

Discussion: Based on our analysis of our average incomes in our four family projects, a deconcentration plan is not required at this time for this plan year. Incomes by project as of August 2003 are:

Projects	Project	Average
IL06P011	Number	Gross Income
Fair Oaks	001	\$ 4,748
Beeler Terrace	002	6,612
Fair Oaks Addition	003	5,798
Fair Oaks West	007	5,533
Average of Project 001, 002, 003, 007 = \$5,693		

Income Limits per HUD (HUDCLIPS) Income Limits effective February 20, 2003
Vermilion County Illinois

	<u>1 person</u>	<u>2 person</u>	<u>3 person</u>	<u>4 person</u>
30% of Median	10,100	11,550	13,000	14,450
Very Low Income	16,850	19,300	21,700	24,100
Low Income	27,000	30,850	34,700	38,550

Overall Vermilion County Median Family Income = \$45,200

Analysis: All of the Authority's four family projects have an average family income below the 30% of median for even a 1 person family; therefore making all of our average incomes in the extremely low income category. Therefore, it is our determination that income mixing is not required for the plan year in question. Additionally, it should be noted that projects 001, 003, and 007 are all Fair Oaks projects which are co-located in one continuous area with different buildings assigned to different projects as the only differentiation.

Danville Housing Authority PHA Plan – April 1, 2004 – March 31, 2005
Component 7 – Capital Improvement Needs
Debt Financing Addendum

Background: The Danville Housing Authority intends to evaluate and undertake a debt financing initiative to enable the Authority to accomplish certain projects in a shorter time frame than the normal HUD Capital Fund funded time frames. Two options will be explored and the option most advantageous to the Authority will be used to fund capital projects with Capital Fund funding pledged to service the debt and associated costs.

Projects To Be Undertaken: Using currently available Capital Funds, the Authority has retained architectural and engineering services to analyze the current antiquated sanitary and storm sewer systems and to design replacements for the three contiguous 326 unit Fair Oaks housing complexes. The analysis is complete and a total replacement of the sanitary sewer is required and substantial additions to the storm sewers are needed. The total estimated cost of the sanitary and storm replacement systems is \$1,555,000. For funding reasons, the Authority plans to break the project into three sanitary and four storm system phases.

Funding: The Authority currently has two Capital Funds (CF) available. The 2001 CF is 100% obligated and nearly spent (\$971,867 of \$997,820) and the 2002 CF (\$960,056) is 32% obligated (\$430,499) with a \$477,000 contractual increase pending approval during October 2003 for an overall 81% obligation and an additional \$95,000 contract pending approval once the CF 2003 monies are received. Deducting necessary management improvements and administrative costs leaves about \$250,000 available from the combined 2001, 2002, 2003 funds to go towards this very necessary sewer project.

Debt Financing: The Authority plans to use one or both methods of debt financing to fund and accomplish at least one phase of the sanitary and storm sewer project. Option one is participation in the Illinois Public Housing Finance Corporation bond issuance program for funding capital projects with the debt service secured and paid from future Capital Funds. Option two is a straight loan from a financial institution with debt service repayments secured and repaid from future Capital Funds. The anticipated amount to be financed would range from approximately \$400,000 to \$1,500,000. Options will include contracting for one phase of sanitary sewer with the accompanying storm sewer addition at the low end to contracting for the entire project. The option selected will depend on the debt terms, cost, and prudent scheduling combined with the level of Capital Fund funding for the additive 2003 distribution and projected 2004 funding levels following approval of HUD's Capital Fund appropriations for FY 2004. Due to the lead time involved in securing actual funding, initial actions will be taken to lay the groundwork for the debt financing with actual borrowings to be completed early during calendar 2004.
